

Christmas Tree Paper Chain

Supplies You'll Need:

- 25 strips of paper – 19 green strips, 5 red strips, 1 yellow strip
- tape, (glue or stapler can work too, but tape is easiest)

How To Do It:

Tape paper strips around one another in the form of a tree.

TIP: *You may have to look at this photo to see how I did it, because it took some time to get it right! It's better to do it with someone else.*

Row 1: Start with the yellow to a green.

Row 2: Hang 2 more green off your first green.

Row 3: The next row has 3 paper chains, one off each of the 2nd row and 1 in the middle of those.

Row 4: Hang 2 off each of the 2 edge chains from row 3.

Row 5: The next row has 5 paper chains, one off each of the 4th row and 2 each in the middle of those.

Row 6: Hang 2 off each of the 3 chains from row 5.

Row 7: The next row has 3 chains for the "trunk". Hang 2 sideways off of the middle 4 chains from row 6 and one in the middle of those.
